'Risk' indicates overall country risk. Subsequent columns specify whether or not there is a particular risk to cargo assets in the category quoted.

What is the Risk Scale?

6.5 And Above	Extreme
4.4 to 6.4	Severe
3.2 to 4.3	Very high
2.4 to 3.1	High
1.6 to 2.3	Elevated
0.8 to 1.5	Moderate
0 to 0.7	Low

The risk scale ranges from 0 - 10. The scores enable the comparison of risk between location, providing a greater degree of precision than risk bands alone (e.g. Extreme). Each risk band has been colour coded to be consistent with the system used by IHS Country Risk
